 Meeting Room Solution

### Appropriate Display Brightness

With a recommend brightness of 500 cd/m<sup>2</sup> for indoor display, the UH5J-H series clearly delivers content and attracts public attention, making it the most suitable display for marketing in meeting rooms, airports, retail, shopping malls, etc.

\* Actual images available may differ from the example images shown.

### High-Performance with webOS

LG webOS platform enhances user convenience with intuitive GUI and simple app development tools.

### Conformal Coating

In various places the UH5J-H series is unable to avoid exposure to environments containing dust, humidity, etc. which may hamper performance over time. The conformal coating on power board reduces these risks by protecting UH5J-H series from salt, dust, iron powder, humidity, etc.

\* Actual images (signage display) available may differ from the example images shown.

### Mobile Content Management

You can create a store profile and get template recommendations using the Promota\* app. Users can customize templates as needed and easily create and manage content not only on PCs but also on mobile devices.

\* LG Promota is can be downloaded from the App Store and Google Play store. (Not available for Europe/CIS Region)

\* In Korea, the name is not Promota, but Mustard.

## IP5x Certified Design

The IP5x Dust-Proof Certification ensures that the product is protected from dust, reducing the risk of performance degradation.

## Compatible with AV Control System

The UH5J-H series has supported Crestron Connected® for high compatibility with professional AV controls to achieve seamless integration and automated control\*, boosting business management efficiency.

\* Network based control
